Comfort, style and convenience in one powerful controller

The SunRay Touch8 Controller offers you total comfort and convenience.

Available in white, it comes with a 2 year warranty and will blend seamlessly into your home's decor.

You will love its intuitive menu-driven set-up, programming and operation, with audio prompts to confirm your touch-screen entries, and permanent program retention during power loss.

Going on holiday is also a breeze with the Touch8! Simply switch the controller to Vacation Mode without the need to reprogram when you get home.
